

Ali Rezaei

Senior Frontend Developer

Tehran, Iran · ali@example.com · linkedin.com/in/alirezaei · github.com/alirezaei

SUMMARY

Software developer with 6+ years of experience building web products across startups and product-driven teams. Focused on clean code, smooth user experience and effective collaboration between design and engineering.

EXPERIENCE

Senior Frontend Developer

Digital Innovators Co. — 2023 to Present

Leading frontend architecture for the company's core product redesign; built a shared design system and cut page-load time by 40%.

Full-Stack Developer

SabadPal Startup — 2021 to 2023

Designed and built the API and UI for an e-commerce platform serving 50,000+ active users; set up CI/CD pipelines.

Web Developer

Arvin Digital Agency — 2019 to 2021

Built websites and applications for 20+ clients across restaurants, fintech and other industries.

Junior Developer

Pixel Web Studio — 2018 to 2019

Learned professional web development practices while collaborating on small team projects.

EDUCATION

B.Sc. in Computer Engineering

Amirkabir University of Technology — 2015 to 2019

Web Systems Architecture Certificate

Online Specialized Program — 2022

UX Design Certificate

Online Specialized Program — 2020
